Enagic has a wide series of the machines that they produce. Main difference between the machines is the number of plates they have! More plates the machine has, the more Molecular Hydrogen it produces. This ofcourse sets the price higher. Enagic water machines are often referred to as **the gold standard** in the industry.

There are several reasons for that. Kangen water ioniser machines are assembled from the start to finish by **one technician** ensuring the highest quality control available. All employees Master high-level technological knowledge and proficiency throughout the entire process in putting development production Supply and service. This is how they ensure the highest product quality.

Enagic uses medical-grade platinum and titanium. To be more precise, Enagics machines use four times the amount of titanium and platinum than their competitors, making them last 20 + years. That also means that the Enagics electrolysis process will be more efficient, there will be less mineral buildup and long-term liability will be maximised. The machines are approved as a medical device by the Japanese Ministry of Labour and Welfare.

It is also important to mention that Enagic produces the highest quality supplements made from curcuma called UKON and shower filtration called Anespa DX.

These machines are made to be once in a lifetime purchase.

K 8

Kangen 8 is the newest Enagic model that quickly became the bestseller. It is Enagic's most powerful antioxidant machine - featuring 8 platinum-dipped titanium plates for improved water ionization and increased antioxidant production potential. If you're looking for a powerful and versatile machine with plenty of user-friendly and energy-saving automated features, the K8 is for you. K8 speaks 8 languages and has automatic cleaning.

JRIV

The JrIV has four solid electrode plates which reduces the energy consumption. Due to the solid platinum-coated titanium plates, this unit can still produce the strong acid and strong Kangen waters. JRIV is an awesome budget friendly option! Due to the lower power consumption and fewer plates, this machine is only recommended for singles or couples. Families should consider one of the more robust models above due to the amount of output required.

UKON Σ

Ukon™ (wild turmeric) has been recognized for centuries as a natural healer. It has been known since the era of the Ryukyu Dynasty as a strong antioxidant, and India's ancient medicine (Ayurveda) has used turmeric as an analgesic, antibacterial, anti-inflammatory, anti-allergic, and antioxidant for over 6,000 years. The Spring Ukon (harvested exclusively for Enagic) is grown on dedicated farms in Yanbaru and is 100% free of harmful chemicals used in lower-quality, conventional turmeric farming.

Depending on the country, Enagic also has available Ukon Tea and Ukon Soap!

EXTRA POINTS FOR DISTRIBUTORS

If you decide to become a distributor and want to buy Ukon, please note that there is a special option for distributors that gives them extra points. If you haven't yet, I strongly recommend you to go and watch [the compensation plan video](#) and then after the video above that explains health and business benefits of UKON!

ONLY FOR USA

Yes, I know it's not fair for the rest of the world, but these two awesome machines are only available in the USA (for now!). SD501 Super and SD501 U are two game changers. I will not write the payment option for those machines above because every country has its own tax rules. But it's important to mention that there is a payment option available for both! Both machines have an option of max 24 instalments.

If you could use a little more free counter space, this is the perfect unit for your kitchen! With the quality and power of the SD501, but the convenience of nestling discreetly under your sink. This Enagic machine is both practical and highly accommodating. You will still enjoy a fully featured, compact LCD control panel that is wall-mounted.

A close-up photograph of a person's hands pouring water from a large, clear glass bottle into a smaller glass. The scene is set on a bed with light-colored, wrinkled fabric. In the background, an open book and a slice of bread are visible. The lighting is soft and natural, creating a calm and intimate atmosphere. The text 'TOKUREI PROGRAM' is overlaid in the center in a bold, white, sans-serif font.

TOKUREI PROGRAM

DON'T HAVE THE MONEY?

This program was created to welcome everyone. This is for persons that are unable to purchase the machine via full payment or payment plan but still want to work for Enagic. This person has a function as a “partial” distributor. Meaning that they are able to go out and sell machines, but they will only receive partial commission. To sign up as a Tokurei, a person must submit their application along with the application of someone that is purchasing the machine (or Anespa) either by full payment or Enagics financing. The Tokurei will sponsor the buyer, and therefore will start with one sale (as a 1A).

How to do that?

- Enagic requires Tokurei distributors to purchase a “Tokurei starter kit” for \$25 (+ \$7 shipping and tax, cca \$35) -> for Europe and Australia is not necessary
- When signing up as Tokurei, one needs to select which machine they are working towards when filling out the application. (you can not downgrade the machine, but you can upgrade, meaning if you choose to work towards K8, you can downgrade to the cheaper one, but if you decide to work for JR IV, you can upgrade to ones in the higher price range!)
- A Tokurei will not receive their machine until enough commission has been accumulated to fully cover the cost of the machine or a cancelation of their Tokurei program is requested. (you can cancel the Tokurei once you have enough money for the down payment for the Enagics payment plan and receive the machine even sooner!)
- As a Tokurei, every time a sale is made within the 8 point structure, part of the commission will be placed toward the Tokurei’s selected machine. (different price for each machine, that’s why we suggest to start with the cheaper machine because less commission will go to the Tokurei program and you will earn more)

IMPORTANT!

- There is no expiration date on the Tokurei program!
- Enagic is a direct sales company that doesn’t have any time limits, quotas or derankings
- Once you start this business you are your own boss. Meaning you do your time management and prioritization of this business! (no pressure and complete freedom in choosing how you want to work!)

If you choose to work with me, you will be added in a special group where we have calls every second Monday on different business topics, plus you will get individual 1:1 coaching and help to start! [CLICK HERE](#) to learn more about the benefits of working with me and Enagic!

A hand is pouring water from a clear plastic bottle into a glass jar. A large, vibrant green leaf is positioned in the foreground, partially obscuring the jar. The background is dark and out of focus, suggesting an outdoor setting with more foliage. The overall mood is natural and refreshing.
